BECOMING THE 1ST OEM PARTNER OF PHISHREAPER, INC.

Introducing a One-of-a-Kind Solution to Combat Phishing and Brand Impersonation

- **Autonomous Agentic AI Hunts Phishing & Brand Impersonation Threat Actors**

- **Preemptive Phishing Detection & Brand Impersonation Protection**

Together, we are enhancing cybersecurity by preventing malicious attacks before they happen.

LogIQ Curve: Driving Digital Transformation with Excellence

- **Global Expertise:**
  Established as a trusted partner in software development, cybersecurity, and digital marketing, serving clients across the GCC, USA, UK, and Europe.

- **Tailored Solutions:**
  Over a decade of delivering innovative, custom-built software and enterprise solutions, empowering businesses across diverse industries.

- **Proven Track Record:**
  Successfully executed complex projects in e-commerce, cloud security, SaaS, mobile app development, and digital transformation for leading organizations.

- **Technological Prowess:**
  Utilizing advanced tools and platforms like AWS, Azure, React, Angular, Python, and Magento to create cutting-edge solutions.

- **Commitment to Success:**
  Our focus on innovation, quality, and measurable outcomes has made us a trusted partner for businesses aiming to thrive in a competitive digital landscape.

LogIQ Curve's Overall Expertise

With a focus on quality, efficiency, and user-centric design, we leverage the latest technologies to develop software that is intuitive, reliable, and future-ready. Our transparent process and collaborative approach ensure your vision is realized within budget and on time.

· Front-End & Back-End Development
· Custom CMS & E-Commerce Platforms
· SaaS, B2B, and B2C Solutions

Key Value Proposition: We harness these cutting-edge tools, technologies, and platforms to deliver high-quality scalable solutions tailored to your business needs, ensuring efficiency, innovation, and a competitive edge in your industry.

WHY LOGIQ CURVE?

1 **Expertise: Over 10 years of experience** in Cybersecurity

2 **Global Compliance:** Provide services adherence to international standards including ISO 27001, SOC2, GDPR, NIST, PCI DSS, NIS2, DORA, HIPAA, HITRUST, NCA ECC, SAMA CSF etc.

3 **Holistic Approach:** Expert Level Penetration Testing, Covering Network Security, Application Testing, Policy Making, Continuous Monitoring, Compliance Review, Internal Auditing, Risk and Vulnerability Management.

4 **Expertise you can rely on:** With a multitude of industry qualifications and years of experiences, our team of seasoned cybersecurity experts guarantees that your security demands will be fulfilled and unmatched aptitude.

5 **Global reach:** Our presence in Turkey, Middle East, Canada and USA gives us unique perspective on the cybersecurity threats, faced by businesses everyday across the globe.

6 **LogIQ Curve Solutions:** Our governance, risk, and compliance services offers a robust framework for managing risks, ensuring compliance and align your security strategy.

7 **Managed Security Services:** Continuous monitoring, threat detection, incident response, and strategy guidance are some of our core expertise that companies rely on.

8 **Our team of experts holds prestigious certifications** such as CISSP, OSCP, ISO27001 Lead Auditor, CEH, CHFI, IBM, AWS Security, MCP, SolarWinds, API Security Architect, Fortinet NSE, Burp Suite, and many more

YEARS OF EXPERIENCE

OUR MISSION IN CYBER SECURITY SECTOR

At **LogIQ Curve**, our mission is to empower businesses across the world with cutting- edge cybersecurity solutions. We are committed to protect the clients and company's digital assets through our expertise in all the cyber security sectors and certified consultancy. Our dedication to excellence and innovation in this sector is driven by a singular goal: to ensure your digital operations are secure, compliant, and resilient against evolving cyber threats.

Your peace of mind is our top priority.

LOGIQ CURVE'S CYBER SECURITY SERVICES

## Protecting Your Digital Future

LogIQ Curve offers a full suite of cybersecurity services designed to safeguard your operations:

📍 **Managed Security Services**
Continuous monitoring, security controls, incident response & expert consultancy.

📍 **Vulnerability Assessment & Penetration Testing (VAPT)**
Simulated threat testing to uncover security gaps and strengthen systems.

📍 **Information Security Management / GRC**
Aligning cybersecurity with industry standards and regulatory compliance.

📍 **Cloud Security Solutions**
Protect your cloud environments with proactive threat detection and Zero Trust policies.

📍 **Procurement Security**
Ensuring secure acquisitions across the supply chain.

ACKNOWLEDGMENT

At **LogIQ Curve,** we recognize cybersecurity as a critical business imperative and are dedicated to equipping your organization to navigate the ever-evolving digital landscape with confidence. Our expert-driven services are tailored to protect your assets, ensure compliance, and fortify your operations. Partner with us for a secure, resilient, and future-ready digital journey.

WHY CYBER SECURITY MATTERS?

Modern Threat Landscape:

Cyber threats are evolving rapidly — from AI-driven phishing to adaptive malware and brand impersonation scams.

✓ Traditional tools alone are no longer enough.

✓ Proactive threat discovery is critical.

LogIQ Curve helps businesses build resilient defenses, not just install firewalls.

ABOUT PHISHREAPER

PhishReaper — Hunting Phishes in the Web's Cold, Dark Abyss

PhishReaper unleashes autonomous AI agents that crawl deep web, dark web, and open internet to detect, validate, and harvest phishing threats with forensic precision.

Trusted by SOC teams, incident responders, and elite threat hunters globally.
Unique Capabilities:

PHISHREAPER.AI

| Autonomous agentic AI | Ultra-low false positive detection (< 0.01%) |
| Real-time risk scoring & intent extraction | Seamless SIEM/SOAR integrations |

WHY PHISHREAPER MATTERS?

Next-Generation Phishing Defense

Traditional detection is reactive — based on outdated blocklists and threat feeds. PhishReaper goes further:

✓ Proactive detection of phishing infrastructure before threats go live

✓ Deep intent analysis & brand impersonation profiling

✓ Integration with enterprise security stacks

Use Cases:

- Pre-live detection of phishing domains

- Brand-targeted threat discovery

- Automated threat hunts at scale

JOINT SOLUTION

LogIQ Curve + PhishReaper

By combining LogIQ Curve's cybersecurity expertise with PhishReaper's autonomous AI engine.

We offer:

🟡 **Preemptive Threat Discovery**
🟡 **Brand Impersonation Protection**
🟡 **Automated Investigation & Response**
🟡 **Seamless Integration into Security Stacks**

From detection to mitigation — before attackers weaponize threats.

HOW IT WORKS - OUR SOLUTION

PhishReaper Core Technology Flow:

- **Agent Crawl & Harvest:** Autonomous agents roam the web and dark corners.

- **Validation & Forensics:** Validate threats with full analytical context.

- **Intent Extraction:** Brand targets, threat profiles & infrastructure patterns are analyzed.

- **Pre-emptive Alerts:** Systems & SOC teams receive actionable signals

USE CASES & BENEFITS

HOW PHISHREAPER TRANSFORMS THREAT INTELLIGENCE INTO PREDICTIVE DEFENSE

Pre-Campaign Phishing Detecttioɴ
Stop attacks before they reach inboxes.

Brand & Supply Chain Protection
Detect clone sites & impersonation before launch

Executive / VIP Protectiom
Prevent targetted impersonation & account takeover.

Agentic AI Intel Enrichment
Continuous AI-driven context & intent enrichment

Automated Takedowns & Preemptive Blocking
Remove phishing infrastructure before weaponization

SOC Automation & Alert Prioritization
Reduce alert fatrgue; focus on high-confidence threats

Fraud & Payments Defense
Detect fake chockout, billing, and payment portals

Threat Actor Profiling & Tracking
Map attacker infrastructure, reuse tactics, and campaigns.

Insurance & Risk Scoring
Provide predictive signals for cyber underwriting.

Partner & Customer Alerting
Notify affected partners and customers early

Regulatory & Compliance Evidence
Time-stamped intelligence for audits and reporting.

High-Confidence URL Blocking Feed
Direct high-confidence blocking feed for mail gateways

REAL CASE EXAMPLES

☆ **PhishReaper** *exposed a live Stripe phishing campaign that went undetected for 14 days by legacy tools — but was caught immediately by Agentic AI.*

☆ *Multi-year phishing infrastructure targeting notable fintech brands was uncovered via deep autonomous crawling.*

These cases highlight how preemptive AI detection can catch threats the rest of the world misses.

PARTNERSHIP VALUE PROPOSITION

PARTNERSHIP VALUE PROPOSITION

Why This Partnership Matters:

- **Enhanced Threat Visibility:** Catch threats before they harm.

- **Reduced Risk & Cost:** Minimize breaches & alert fatigue.

- **Scalable & Autonomous:** Add proactive hunting without heavy human lift.

Together, LogIQ Curve and PhishReaper set a new industry standard for phishing protection.

CLIENTS THROUGH PHISHREAPER CAN ENJOY THE FOLLOWING:

Phishing Detection - monthly or yearly.

Additional services:

1. **Phishing Simulation:** (Monthly, Quarterly, Yearly)

2. **Awareness Training:** - Monthly, Quarterly, or Yearly Awareness training sessions for CEOs, Employees, Privacy and risk specialists.

Discounts on Trainings:

- **25% off** our regular prices for Starter Tier or with a group of at least 5 candidates

- **30% off** for Professional Tier or up to a group of at least 12 candidates

- **35% off** for Enterprise Tier clients or up to a group of at least 25 candidates

  Details to be furnished at on-boarding - **Above are the minimum and can lead to 100% Free of cost (case to case)**

SPECIAL OFFER

WE WANT TO INVEST IN **YOU.**

For 1st 5 Starter Tier clients: 5% off on monthly plan

7.5% off on yearly plan

For 1st 5 Professional Tier clients: 6% off on monthly plan

8.5% off on yearly plan

For 1st 5 Enterprise Tier clients: 7% off on monthly plan

10% off on yearly plan

Market Opportunity

$450B market built on reaction — ready for disruption by early intelligence

CURRENT REALITY

- Reactive cybersecurity ($450B+, +10% YoY)
- Phishing still causes most global breaches
- Threat intel responds only *after* damage begins
- No visibility into brand impersonation infrastructure
- SOCs overwhelmed by late-stage false positives
- Reactive tools = losses, downtime, brand erosion
- Smishing / Social Media largely remain wide open.

THE OPPORTUNITY

- Next frontier: proactive, early-warning intelligence layer
- Unmet need: pre-attack detection before launch
- PhishReaper predicts campaigns at creation stage
- Agentic AI enables new brand ecosystem intelligence
- Early detection cuts noise, cost, and risk
- Proactive prevention = millions saved per incident
- Phishing detection at birth protects all attack vectors.

Competitive Analysis

Entities	🌐 Basic Phishing Feeds	💬 Advanced Threat Intel Vendors	🚀 PhishReaper.ai
🔍 Core Detection Approach	Lists of known phishing URLs from community feeds	Human analysts + automation for enrichment	Autonomous AI agents + LLM-driven intent & pattern analysis
📊 Data Depth	IOC lists only	IOCs + partial enrichment (brand, actor)	IOC + intent, target brand, infra graph, sibling discovery, incident tree
🕵️ Proactivity Level	Reactive (detect after phishing goes live)	Some early warning via analyst work	Pre-emptive — finds phishing before activation
🎯 Target Recognition	None / limited	Manual identification by analysts	Automatic brand & sector targeting recognition
💎 Exclusive Catch Rate	Low overlap (mostly public)	Medium overlap	High exclusivity (60–70% unique finds)
⚖️ False Positive Rate	~1% typical	<0.1% with curation	≤ 0.01% (AI-validated precision)
⚙️ Scalability	Very high (lightweight data)	Limited (human-bound)	Massively scalable (Agentic AI architecture)
🧩 Use Case Fit	Basic URL blocking / SIEM feed	Analyst investigation, IR enrichment	Threat hunting, proactive takedown, autonomous mitigation
💡 Differentiator	Cheapest, basic feed	Human expertise + investigative depth	Combines human-grade depth with AI-level speed & scale

Pricing Model

Tier	Target Customer Size / Use Case	Feed only (USD/month) (monthly)	Feed + API (USD/month) (monthly)	Features Included
Starter	Small teams (≤ 100 users)	2499	4999	Core phishing detection (web-hunting AI), dashboard, weekly reports, up to X phishing site detections/month included, email alerting.
Professional	Mid-sized orgs (101-1000 users)	4499	14999	All Starter + advanced forensics (detailed target-brand + threat-actor profiling), real-time triage, API integrations, SLA 24h.
Enterprise	Large orgs/Global (1000+ users)	6499	24999	All Professional + dedicated customer success manager, custom agents, unlimited detections, multi-brand support, extended SLA (4 h), portal white-labeling.

Discounts & Conditions

- Annual billing receives ~15% discount compared to monthly.
- Minimum user count for Starter: 10 users. For Enterprise: negotiation for >5000 users.
- Volume discounts: users > 5000 or multi-brand >10: offer further ~10-20% off.
- Free Trial: 14-days full features for up to 25 users.
- PASS Add-Ons: Additional capacity/brand monitoring, dedicated agent-deployment, custom threat-hunting engagements charged separately.

IMPLEMENTATAION AND TIMELINE

Deployment Pathway:

1. Initial Assessment & Integration
2. PhishReaper Deployment & Config
3. Security Stack Integration (SIEM/SOAR)
4. Continuous Monitoring & Tuning
5. Operational Handover & Reporting

NEXT STEPS / CALL TO ACTION

TRAININGS & CERTIFICATIONS

At **LogIQ Curve**, we are proud to offer world-class training and certification programs through **our partnership with the globally recognized accreditation body, PECB**. Our comprehensive courses are designed to equip professionals with the skills and certifications needed to excel in the dynamic field of cybersecurity and compliance.

Certifications:

- **INFORMATION SECURITY** ISO-IEC 27001 / ISO-IEC 27002 / ISO-IEC 27005:2022 / ISO-IEC 27035

- **CYBERSECURITY MANAGEMENT** ISO-IEC 27033 / SCADA / CMMC / NIS 2

- **TECHNICAL CYBERSECURITY** CCTA

- **CONTINUITY, RESILIENCE, AND RECOVERY** ISO 22301 / DORA

- **PRIVACY AND DATA PROTECTION** ISO-IEC 27701

- **AI AND DIGITAL TRANSFORMATION** ISO-IEC 42001

- **GOVERNANCE, RISK, AND COMPLIANCE** ISO 31000 / ISO 37001 / ISO 37301:2021 / ISO-IEC 38500

SOME CLIENTS' REVIEWS

Our team and customers were extremely pleased with the penetration testing and vulnerability assessment services provided by LogIQ Curve. They provided the detailed penetration testing report along with the remediation plan in a way that we required it. The team's expertise and proactive approach make them a valuable partner in safeguarding my business assets and processes. We now use them annually in this venue.
Tawanda Minya CTO Siege Systems

It's with great enthusiasm that I write this testimonial for Taha, a remarkably talented cybersecurity expert who recently conducted penetration testing and internal audits for our company. Taha's approach was not only thorough but also infused with a level of expertise and attention to detail that is rare in the field. His ability to identify vulnerabilities and provide actionable insights was invaluable to our security strategy.
Paul Dauterive CBTComply Technologies

I hired Mr. Mohammad Taha on a temporary project with Erxa General Trading Co. as a penetration tester. He has provided an extensive report for the web server, server, IOS, and Android applications. He also was very responsive to our requests and feedbacks. I do really thank him and his team for the professional work given. I advice the potential clients to approach him for such opportunities. His recommendations were clear and practical.
Bassel H M ALHartany HR Manager ERXA General Trading Co.

Muhammad Taha has consistently delivered exceptional penetration testing and cybersecurity services. His expertise in identifying vulnerabilities and implementing robust security measures is truly commendable. With a deep understanding of evolving threats, Muhammad Taha ensures comprehensive protection for digital assets. I highly recommend him and his team to anyone seeking top-tier cybersecurity solutions.
