

Introduction to LogIQ Curve

Integrated Business & Sales Automation Solutions

Creating Possibilities

Vision:

To be a **global leader in digital transformation**, driving innovation, AI-powered solutions, and sustainable growth for a tech-forward future.

Mission:

To **provide innovative, high-impact digital solutions** through advanced AI, software development, and cybersecurity, empowering businesses worldwide to achieve their goals and foster sustainable growth.

- **Innovation**

Our relentless pursuit is to uncover innovative solutions that create exceptional value for our esteemed clients and collaborators.

- **Collaboration**

As a united team, we cultivate open dialogue and shared esteem to realize our objectives.

- **Customer-Centricity**

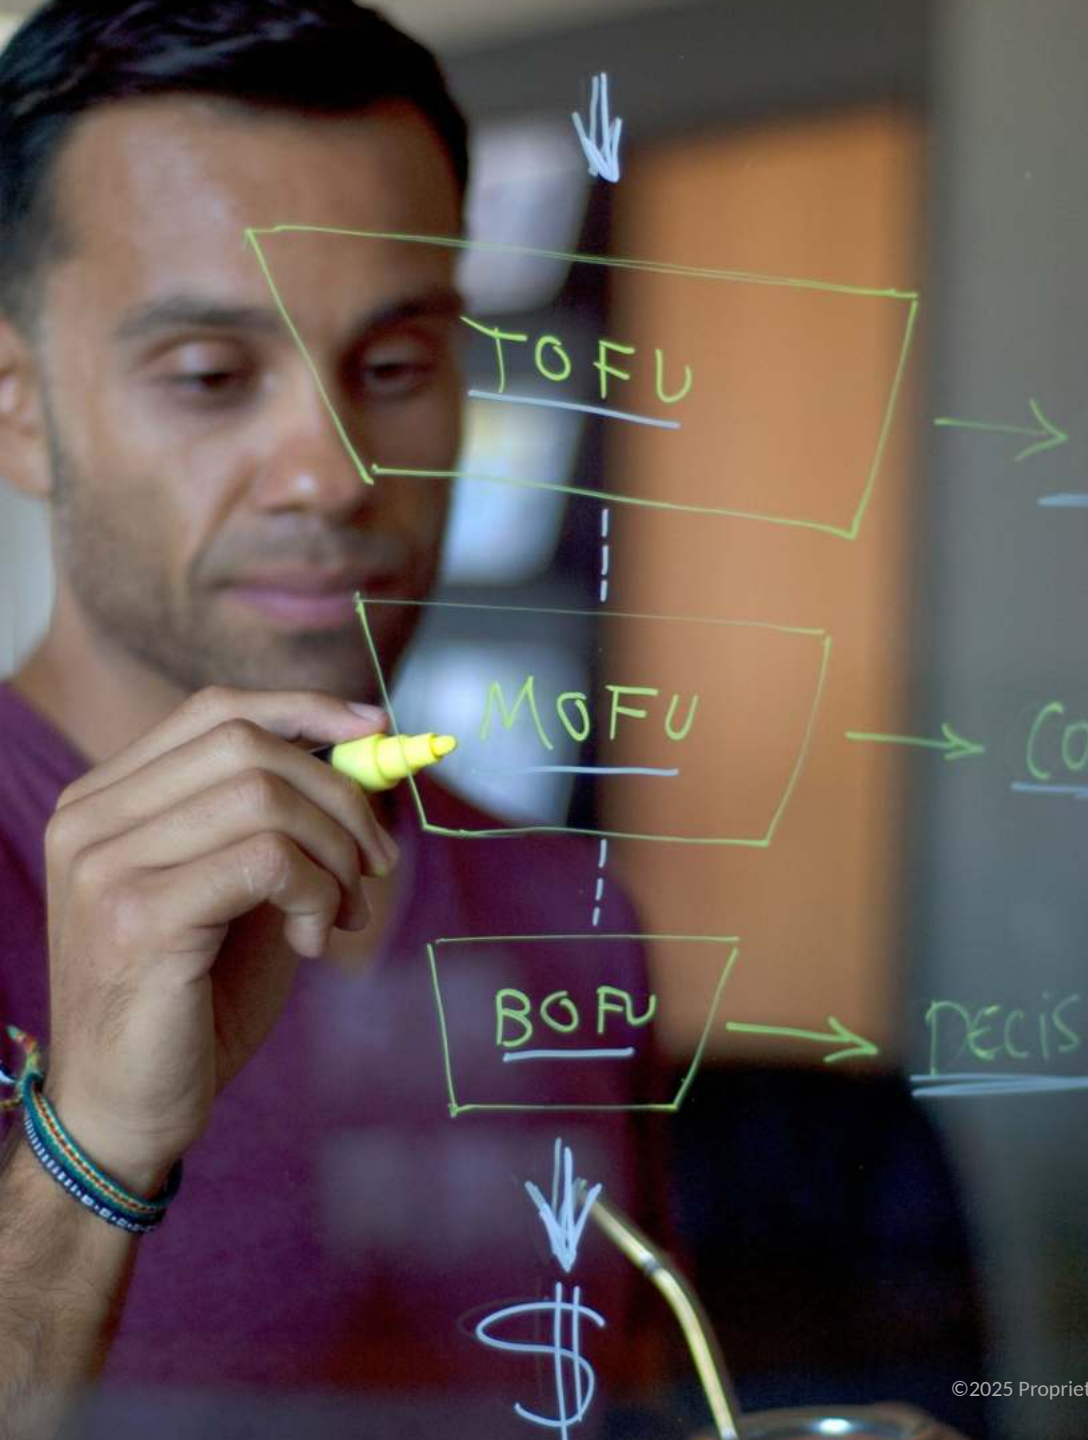

1. Unwavering commitment to customer satisfaction drives our honest and transparent approach, ensuring their needs remain at the core of our operations.

- **Continuous Learning**

1. Continuous self-improvement, both personally and professionally, remains our unwavering commitment.

LogIQ Curve: Driving Digital Transformation with Excellence

- **Global Expertise:**
Established as a trusted partner in software development, cybersecurity, and digital marketing, serving clients across the GCC, USA, UK, and Europe.
- **Technological Prowess:**
Utilizing advanced tools and platforms like AWS, Azure, React, Angular, Python, and Magento to create cutting-edge solutions.
- **Tailored Solutions:**
Over a decade of delivering innovative, custom-built software and enterprise solutions, empowering businesses across diverse industries.
- **Commitment to Success:**
Our focus on innovation, quality, and measurable outcomes has made us a trusted partner for businesses aiming to thrive in a competitive digital landscape.
- **Proven Track Record:**
Successfully executed complex projects in e-commerce, cloud security, SaaS, mobile app development, and digital transformation for leading organizations.

Integrated Business & Sales Automation Platform.

“We offer a diverse portfolio of specialized software solutions, each designed to meet the unique needs of different industries. From ERP systems that manage enterprise resources, to sales and distribution tools that streamline order cycles, to pharma call reporting platforms that empower field forces, and point-of-sale systems that optimize retail operations — every solution addresses a distinct business challenge, helping organizations achieve efficiency, growth, and customer satisfaction.”

A holistic suite of technology solutions designed to streamline enterprise operations, optimize sales processes, enhance customer engagement, and provide real-time visibility from back-office planning (ERP) to frontline execution (POS and field reporting).

Why this works:

ERP → Backbone for operations, finance, and resources

Sales & Distribution → Bridges ERP with customer orders and supply chain execution

Pharma Call Reporting → Industry-specific CRM module for compliance and field sales optimization

POS → Customer-facing endpoint that completes the cycle with transactions and insights

Together, they form a **single value chain**: “Plan → Execute → Monitor → Optimize”.

Sales & Distribution

Sales & Distribution

LogIQ Curve offers comprehensive sales and distribution software that can govern the entire distribution cycle between a company and the retailers that carry its products. The essence of S&D is the strategy that can be developed and implemented over and above the programmable software. These strategies mainly revolve around primary distribution policies set by any company.

- Order booking & supply management
- Live user attendance & location tracking
- Assign multiple locations to teams/distributor
- Distributor & shop stock management
- Sales team target vs. achievement
