LOGIQ CURVE

Creating Possibilities
Partner with LogIQ Curve to transform your vision into innovative and practical solutions!

Vision:

To be a **global leader in digital transformation**, driving innovation, AI-powered solutions, and sustainable growth for a tech-forward future.

Mission:

To **provide innovative, high-impact digital solutions** through advanced AI, software development, and cybersecurity, empowering businesses worldwide to achieve their goals and foster sustainable growth.

- **Innovation**

- Our relentless pursuit is to uncover innovative solutions that create exceptional value for our esteemed clients and collaborators.

- **Collaboration**

- As a united team, we cultivate open dialogue and shared esteem to realize our objectives.

- **Customer-Centricity**

- Unwavering commitment to customer satisfaction drives our honest and transparent approach, ensuring their needs remain at the core of our operations.

- **Continuous Learning**

- Continuous self-improvement, both personally and professionally, remains our unwavering commitment.

LogIQ Curve: Driving Digital Transformation with Excellence

- **Global Expertise:**
  Established as a trusted partner in software development, cybersecurity, and digital marketing, serving clients across the GCC, USA, UK, and Europe.

- **Tailored Solutions:**
  Over a decade of delivering innovative, custom-built software and enterprise solutions, empowering businesses across diverse industries.

- **Proven Track Record:**
  Successfully executed complex projects in e-commerce, cloud security, SaaS, mobile app development, and digital transformation for leading organizations.

- **Technological Prowess:**
  Utilizing advanced tools and platforms like AWS, Azure, React, Angular, Python, and Magento to create cutting-edge solutions.

- **Commitment to Success:**
  Our focus on innovation, quality, and measurable outcomes has made us a trusted partner for businesses aiming to thrive in a competitive digital landscape.

Our Expertise

With a focus on quality, efficiency, and user-centric design, we leverage the latest technologies to develop software that is intuitive, reliable, and future-ready. Our transparent process and collaborative approach ensure your vision is realized within budget and on time.

· **Front-End & Back-End Development**
· **Custom CMS & E-Commerce Platforms**
· **SaaS, B2B, and B2C Solutions**

Key Value Proposition: We harness these cutting-edge tools, technologies, and platforms to deliver high-quality scalable solutions tailored to your business needs, ensuring efficiency, innovation, and a competitive edge in your industry.

Hotel Management System | HMS
Statement of Work

The system provides a complete module for managing all guest information and reservation details:

Elevate Your Hotel's Efficiency and Productivity

Unlock the full potential of your hotel with our cutting-edge management system.

Reporting Center

Treasury / Cash Counter Module

Additional System Features

System Strengths

Guest Registration

- Register a new guest with personal and contact details

- Add company details (if applicable)

- Capture arrival status and identification information

- Automatically generate a unique registration number

- Multi-Guest Handling

- Add multiple guests under a single room or reservation

- Quickly record guest relationships and identity information

- Special Requirements

- Add internal notes or special requests from guests

- Maintain a complete profile for personalized service

Booking Management

A powerful booking engine to streamline all reservation activities:

- Booking Overview

- Record total adults and children

- Select check-in and check-out dates & times

- Assign rooms and bed types

- Attach packages and services to the booking

- Apply discounts and special offers

- System automatically calculates totals, discounts, and final amount

- Advance Payment Management

- Accept cash or card payments

- Choose payment modes

- Link payments to specified cost centers

Foreigner Information Module

Designed to comply with government regulations for foreign guests:

- Capture passport and visa details

- Record nationality and purpose of visit

- Maintain immigration information (arrival, place, date, registration no.)

- Identify if the guest is employed in Pakistan

- Maintain complete contact details

Reservation Print View

Generate a professional reservation slip instantly:

- Printed on hotel letterhead

- Shows booking reference and registration number

- Displays arrival, departure, room, and bed details

- Shows guest identity details

- Includes selected packages and check-in/check-out status

Displays a complete day-wise billing summary:

- Bill amount

- Advance received

- Balance amount

- Options to print with header, logo, bottom footer, or duplicate copy

Hotel Service / Room Service Forms

Used for taking orders for room service, food, or additional services:

- Categorized items (Snacks, Fast Food, etc.)

- Auto-loaded item names

- Enter quantity and rates

- Automatic line-item subtotal calculation

Additional Hotel Services Management

Create and manage paid or complimentary services easily:

- Add services such as breakfast, airport pickup, laundry, car rental, extra mattress, etc.

- Specify purchase price and selling price

- Define if service is charged per head, per room, or per day

- Assign services to specific rooms or make them available hotel-wide

- Apply tax settings before or after discounts

Hotel Shop / Mini Store

Ideal for hotels that keep a small store for guest purchases:

- Add and categorize store items (snacks, beverages, toiletries, essentials)

- Enter rate and quantity

- System auto-calculates subtotals

- Maintains a complete sales record of shop items

Reporting Center

Includes powerful reports for financial and operational visibility:

- Hotel Reports

- Booking & Payment Report

- Guest Report

- Performance Report

- Guest-wise Balance Report

- Daily Cash Activity Report

- General Reports

- User activity logs

- Sales summaries

- Memorized reports for quick access

Room Management

Complete control of hotel room inventory:

- Room listing and categorization

- Room pricing control

- Room status (Occupied, Vacant, Blocked)

- Real-time room availability tracking

Action Forms

Operational forms designed for daily hotel staff tasks:

- Room shifting requests

- Cleaning and housekeeping requests

- Lost & Found entries

- Maintenance forms

LC - HMS

Admin & Master Data Settings

Centralized administration options:

- Manage packages

- Manage services

- Configure taxes

- Maintain cost centers

- Define user roles and permissions

- Control system-wide access

Treasury / Cash Counter Module

Manage financial transactions smoothly:

- Collect advances and payments

- Record multiple modes of payment

- View day-end cash activity

- Reconcile daily cash collections

Additional System Features

- Automatic calculation of totals, discounts, and billing

- Separate workflows for rooms, banquet, shop, and services

- Guest ledger with advance, balance, and payment tracking

- Fully responsive, easy-to-use interface

- Professional printable formats

- Multi-day billing summary

- Fully web-based — can be accessed from anywhere

- Highly customizable as per hotel requirements

System Strengths

- End-to-end hotel management on a single platform

- Improved accuracy in billing and record keeping

- Complete lifecycle management from check-in to check-out

- Fast navigation and user-friendly interface

- Strong reporting for management and auditing
